WHAT'S NEW

SIMPLICITÉ POLYDIP 40G POWDER

Simplicité Powders are pigmented, very fine coloured powder that completely cover the nail in just two dipping applications, saving you time and money! Now available in 40g size.

NSI COLOUR KIT

Create beautiful acrylic nail art with the new NSI Colour Kit. Vibrant colors bring your designs to life, and mix them together to create an entirely new color range.

TECH-GEL GLITTER BASE

The Tech-Gel Glitter Base can be used for a variety of nail art. From custom glitter mixes, to candy balls, even as a blooming gel. The possibilities are endless!

ABOUT THE COVER:

NSI Global Educator, Darlene Tewitz created this dazzling set using all NSI Products. Darlene has been an NSI educator in Canada since 2008, and in 2013 she became part of the NSI global educator team that teaches and travels the world. Over the past 2 years Darlene has become a major part of R&D of new products and colors for NSI.

ACRYLIC NAIL POWDER

SECRETS ACRYLIC SYSTEM

The Secrets Acrylic System allows you to create beautiful, strong acrylic enhancements that mask the natural nail with a touch of shimmer. The secret to effortless application is the self-leveling Secrets Masquerade Powders.

Secrets Acrylic Kits

1315 Secrets Artisté Intro Kit

Veil White Powder

A bright white.

1304 40 g (1.41 Oz.)

Disguise Powder **

A soft rose cover powder with a glistening pink shimmer.

1301 40 g (1.41 Oz.)

Conceal Powder ** A

A pure peach cover powder with a glistening gold shimmer.

1302 40 g (1.41 Oz.)

Pure Ice Powder

A transparent powder to encapsulate your nail art design.

1303 40 g (1.41 Oz.)

ACRYLIC NAIL LIQUID

Attraction Nail Liquid

Evaporates slowly, reducing odors for a pleasant salon and spa environment. Draws the powder to the brush for quicker and easier bead pick-up.

7123	118 mL (3.9 Fl. Oz.)
7124	240 mL (8.1 Fl. Oz.)
7126	946 mL (32 Fl. Oz.)
7127	Gallon (Four 32 Fl. Oz.) One
7128	Gallon Pack (Four 128 Fl. Oz.)

Spa Nail Liquid

A superior odor-free sculpting monomer that delivers beautiful, long lasting enhancements without the scent of traditional EMA liquids. This monomer is the perfect enhancement addition for spas, salons and schools.

7402	59 mL (2 Fl. Oz.)
7403	118 mL (3.9 Fl. Oz.)

Primerless Nail Liquid

Eliminate the use of a nail primer with this nail liquid without sacrificing the ease of use.

1317	100 mL (3.4 Fl. Oz.)
1312	200 mL (6.7 Fl. Oz.)

Universal Nail Liquid

The original cross-linking monomer that creates tough, yet thin nail enhancements. Non-yellowing formula uses a UV shield to block out UV exposure to retain colour clarity, and keeps enhancements looking new. Perfect alternative for sensitive clients.

7104	236.6 mL (8.1 Fl. Oz.)
7106	946 mL (32 Fl. Oz.)
7107	Gallon (Four 32 Fl. Oz. Containers)

GLASS DAPPEN DISH WITH LID

The Glass Dappen Dish is an essential tool for all nail technicians. It prevents contamination of the nail liquid, and the lid reduces liquid evaporation. Using the Glass Dappen Dish promotes monomer stability until the last drop is used.

Simplicite[®]
PolyDip LED/UV

DISCOVER KIT

WHAT IS SIMPLICITÉ?

With the awakening of an old technology using traditional cyanoacrylate dip systems, we wanted to bring this idea into the light cured era. We call it Simplicité, it's easy to use, easy to remove and easy to extend a nail or do repairs on natural nails. The beauty of Simplicité, is that it's unique formula bonds to the natural nail, absorbs the polymer and, once cured, stays strong, durable and flexible.

Simplicité is the perfect product for both spas and the beauty market. Simplicité is easy to learn and teach to new technicians. It is also an ideal product for transitioning clients from a gel polish manicure to nail enhancements. It has the polished look that clients love from gel polish, but the strength of a nail enhancement.

WE ASKED THE PROS: *Why Simplicité?*

Denise Wright
NSI Global
Educator, UK

Darlene Tewitz
NSI Global
Educator, Canada

With the Simplicité PolyDip System, you can work all five fingers at the same time because there is no risk of product drying. Traditional resin dip systems only allow you to work on one finger at a time.

Easily maintain the NSI Simplicité PolyDip nail enhancement with regular infills. Traditional resin dip systems need to be soaked off and redone every time.

Simplicité uses a unique formulated oligomer that absorbs the powder for fuller, even colour coverage. Traditional dip systems use a resin, which is an adhesive. The dip powder only sticks to the top layer.

Clients love that Simplicité feels like wearing polish, it doesn't feel tight on the nail like other dip systems. It does not have the polymer shrinkage that causes that tight feeling, like any resin based dip systems.

SIMPLICITE POLYDIP SYSTEM

Simplicité PolyDip System fits between the permanent polish market of gel polish, and traditional nail enhancement services like Attraction Acrylic or Balance Gels. The Simplicité PolyDip System is a whole new level of nail dipping systems. The unique light cured technology is faster than other dip systems and keeps clients' nails stronger and healthier.

30g Crystal Tabletop Jar

The inserts can be removed and sanitized after each dipping application. Additional inserts are available.

6310 Single Jar
63116 6 Jar Inserts

Clear

A transparent powder perfect for a base layer.

6700 40 g (1.4 Oz.)

Pink Silk

A slightly sheer bright pink for a flawless french.

6710 40 g (1.4 Oz.)

Opaque Pink

An opaque nude pink for a natural looking nail.

6720 40 g (1.4 Oz.)

White

A completely opaque white for a flawless dipped french.

6725 40 g (1.4 Oz.)

DIPPING SYSTEM LIQUIDS

1

Prep

Quickly preps the nail before application of Simplicité Bond.

6760 15 mL (.5 Fl. Oz.)

4

TECH-GEL GLITTER BASE

Tech-Gel Glitter Base can be used for a variety of nail art. From custom glitter mixes, to candy balls, even as a blooming gel. The possibilities are endless!

- Mix your own unique gels
- Use to Create Blooming Gel Art
- Create Candy Balls
- Show off your creativity and talent

8787 Tech-Gel Glitter Base

CUSTOM GLITTER MIX GEL:

1. Using your Secrets Sparkles, choose either one colour or mix different shades of sparkles to customize. Be sure to mixed well together.
2. Be sure to use an opaque jar when adding in your Tech-Gel Glitter Base.
3. Squeeze out the Tech-Gel Glitter Base into the jar so that there is a ratio of gel to glitter of at least 2:1. You need to ensure there is enough gel for it to cure.
4. Using your brush, or metal tool, mix the gel into the glitter until evenly mixed and distributed. Now you have a custom glitter gel!
5. Using your #5 Touch Tip Kolinsky Brush, Gather a small amount of gel on your brush. Apply in polish style strokes to the nail.
6. Cure for 30 seconds LED or 2 Minutes UV.
7. Apply Essential Seal and cure for 30 seconds in LED or 2 minutes in UV.
8. Remove the tacky layer with a Nail Wipe saturated in Cleanse.

SECRETS SPARKLES

Secrets Sparkles are very fine, exceptionally reflective pure glitters to enhance designs, mix with acrylic or gel, or dip straight into.

#8 Grand Brush

Ideal for creating of thin, beautiful, and properly designed nail enhancements. Larger barrel allows for increased liquid pick-up. Made from pure, kolinsky sable hair.

3501 #8 Grand Kolinsky (Round)

NAIL FORMS

FITTING TECHNIQUES

An important part to sculpting with a nail form is to ensure a proper fit. The strength of a sculpted nail is only as strong as the fit of the form.

Before applying the form to your client's finger, try rolling your C-Curve into place. Approach the nail with your curved form and place it under the free edge of the nail. Place the bottom tabs together in the front and back evenly and then squeeze the bottom tabs tight. Squeeze the top of the nail form along your client's finger, this will help you create a very tight fit. A fitted form should look like images above.

SOME THINGS TO LOOK FOR:

- Is the form straight?
- Is it tight to eliminate seepage?
- Are you happy with your C-Curve?

Platinum Nail Forms

SKILL LEVEL: All
PRODUCT TYPE: Acrylic / Gel
LENGTH: All
PERFECT FOR: A Versatile Nail Form

Perfect for techs that need a versatile nail form. These forms are great form for sculpting all nail shapes. For gels: Apply a thin clear gel base layer under your enhancement, to ensure a complete cure.

3735 (300 Ct.)

Stiletto Nail Forms

SKILL LEVEL: Advanced
PRODUCT TYPE: Acrylic / Gel
LENGTH: Long
PERFECT FOR: Next Level Nail Art

These forms are ideal for sculpting alternative nail shapes. Allows you to sculpt longer enhancements without doubling up forms. You can even use these forms for sculpting with gels.

1360 (300 Ct.)

NAIL TIPS

Precision Plus Nail Tips

Beautifully flatter and extend the nail, without the look of a bulky nail. The tips' side walls are softly tapered in, and the C-Curve is delicate but strong and flexible enough for a deeper more dramatic curve.

Polybond Adhesive

Fast-drying, brush-on clear adhesive. Polybond is ideal for applying nail tips and nail art add ons because it holds strong and won't yellow the product or nail tip.

1140 7 mL (.23 Fl. Oz)

NAIL FILES

Endurance Nail Files

Revolutionary file that last 4 times longer than the average abrasive and is extremely effective for rapid product reduction, easing the nail tech's effort and fatigue when filing. Varying levels of grit make Endurance Files excellent for all nail services.

NEW!

Bond Enhancer PH Balancer

Bond Enhancer is not a nail primer, it works by balancing the pH level of the nails' surface to promote adhesion. Using Bond Enhancer as an added prep step adds extra adhesion.

0910 15 mL (.5 Fl. Oz.)

Bond Acid-Free Primer

Designed for use with your favorite gel and acrylic systems. Bond primes the natural nail before application of product. Bond will not discolor the enhancement or burn the skin.

8800 15 mL (.5 Fl. Oz.)

Base Coat LED/UV Base Coat

Base Coat is a LED and UV curable base gel that provides exceptional adhesion to the natural nail. Base Coat prevents lifting, and improves the wear of hard gels and gel polishes.

8802 15 mL (.5 Fl. Oz.)

Seal LED/UV Top Coat

Seal is a LED and UV curable top coat for your favorite products. Seal brushes on smooth to seal and protect the nail with a radiant high gloss finish.

8804 15 mL (.5 Fl. Oz.)

Air Dry Air Dry Top Coat

No lamp needed, just let Air Dry! Seal and protects polished nail enhancements in just 3 minutes. Apply after the application of polish and allow to Air Dry for an ultra-shiny, no-smudge finish.

8806 15 mL (.5 Fl. Oz.)

Essential Kit

Bond Enhancer - 15 mL (.5 Fl. Oz.), Bond - 15 mL (.5 Fl. Oz.),
Base Coat - 15 mL (.5 Fl. Oz.), Seal - 15 mL (.5 Fl. Oz.)

8820 Essential Kit

MISC. PRODUCTS
